

## TV 31 Turbo

The vacuum packaging TV 31 Turbo is built entirely in stainless steel AISI 304/SB.

The vacuum chamber has a rounded inside corners for ease of cleaning.

The operating cycle is automatically controlled by the electronic board, the sealing bar is positioned on pneumatic pistons.

The machine can handle up to 10 independent programs with digital control panel. Two nozzles allow the use of the function of inert gas during the packaging.

It does not require latch cover as it features an innovative system.
