

Vacuum 33 Turbo

The **Vacuum 33 Turbo** by **Tecla** is a **fast professional vacuum sealer** designed for businesses that need both speed and reliability.

Equipped with a **50 cm opposing double sealing bar** and an integrated **liquid protection filter**, it offers exceptional versatility, making it ideal for packaging multiple bags or large products efficiently.

Its **oil-lubricated vacuum pump** delivers a consistently deeper vacuum and much faster cycles compared to standard self-lubricating pumps. This makes the Vacuum 33 Turbo the right choice for professionals who want maximum speed without compromising sealing quality.

The robust **stainless steel construction** ensures durability, hygiene and ease of cleaning, even with continuous heavy use.

Key Features

- **Opposed 50 cm double sealing bar**, enabling multiple bags or large-format sealing in one cycle
- **Oil-lubricated vacuum pump** for stronger, faster vacuum cycles
- **Fast cycle times** with superior vacuum levels, ideal for professional use
- **Integrated liquid protection filter** prevents damage from accidental liquid aspiration
- **Compatible with thick and aluminized bags** such as coffee or cured meats
- **Automatic upper sealing bar** applies precise pressure for uniform closure
- **Stainless steel body** robust, hygienic and durable

Advantages

- Recognized as one of the fastest external vacuum sealers in its class
- Delivers chamber-level performance with the convenience of external packaging
- Perfect for sealing thick or aluminized bags with speed and reliability
- Extended lifespan and protection thanks to the liquid protection filter
- Made in Italy – quality, precision and durability

Fields of Application

- **Food industry** ideal for butchers, cheese producers, coffee roasters, and cured meat specialists who need fast cycles and reliable packaging
- **Catering and gastronomy** professional kitchens and catering businesses requiring speed in preparation and preservation
- **Industrial packaging** fast, continuous vacuum sealing for medium to high production volumes
- **Non-food** electronics, mechanical parts, lab samples or sensitive items needing quick and safe vacuum protection

The Vacuum 33 Turbo is the fast professional vacuum sealer that guarantees high speed, a powerful oil-lubricated pump, 50 cm sealing bar and integrated liquid protection filter - the ultimate choice for performance and productivity.
