

Multipla 50

Multipla 50, a compact **vacuum packaging machine produced by Tecla**, is a versatile appliance that can use both traditional vacuum bags and Vacuum Box Gastronorm containers (with the compatible plug).

So this is a **vacuum machine without limits**.

Stainless steel body, resistant and user-friendly controls. The **vacuum pump is powerful**, so the **vacuum packaging** with this appliance is **very quickly!**

Like all the Tecla vacuum packaging machines range, **Multipla 50** is fully **Made in Italy**.
