TECLA

TV 30

Tecla TV 30 is a professional chamber vacuum sealer designed to offer maximum ease of use without compromising reliability and consistent results over time.

Thanks to its compact structure and intuitive operation, it is the ideal solution for restaurants, delicatessens and laboratories that want to introduce professional vacuum packaging into their workflow with a practical and efficient machine.

PERFORMANCE AND EASE OF USE

TV 30 is designed to ensure immediate and straightforward operation, making vacuum packaging accessible even to those approaching this technology for the first time.
The digital control panel with 20 customizable programs allows you to easily set working parameters and achieve consistent, repeatable results over time, even with multiple operators.

The working cycle is fully automatic: simply close the lid and the machine will perform all packaging phases autonomously, reducing processing time and simplifying daily operations.

SOLID AND RELIABLE

TV 30 is manufactured in Italy using high-quality Italian components. The vacuum chamber and body are made of AISI 304 stainless steel, a hygienic and corrosion-resistant material ideal for food applications.

A dedicated program performs automatic oil dehumidification, helping to extend the pump's lifespan and maintain consistent performance over time.

COMPACT AND EASY TO INTEGRATE

The compact dimensions make TV 30 easy to place in any working environment, even where space is limited. It is the perfect solution for those who need a reliable professional machine without compromising on practicality and space optimization.

WHEN TO CHOOSE TV 30

TV 30 is the ideal choice for those looking for a simple, compact and reliable professional chamber vacuum sealer for daily use.
It is particularly suitable for businesses that want to start working with professional vacuum packaging using an efficient and easy-to-manage solution.

SEE ALSO

TV 31 - higher capacity thanks to the larger vacuum chamber
